

Winterville at Work!

Old Tar Road Projects

The NCDOT added pavement markings and stop signs at the Old Tar Road and Vernon White Road intersection. Drivers are urged to slow down and be cautious of the new traffic pattern. An all-way stop is an effective and cost-efficient way to improve the safety of an intersection and reduce the risk of serious crashes.

The start date for the project has been pushed back by NCDOT to the Summer of 2026 to allow additional time for planning and design". The project link is: <https://www.ncdot.gov/projects/evans-old-tar/Pages/default.aspx> A link for a video of how the project may look is: <https://www.youtube.com/watch?v=58Fi3ES3dMI>

Safe Routes to School

Temporary intersection changes have arrived at Main St/Church St, Cooper St/Church St, and Cooper St/Academy St! We're testing out a new street design using curb extensions and high-visibility crosswalks to make these areas safer for kids and community members to cross the road. These low-cost "quick builds" will remain in place for 6 months to 1 year while we collect your feedback and safety data. We want to hear from you! Come on by, check out the changes, and tell us what you think in a short survey: <https://forms.office.com/r/bdZV6mFScT>

Piano Lessons

In the first 30 days of beginner piano lessons, you will embark on a journey that establishes a solid foundation for your musical skills. We will begin by getting familiar with the piano's layout, including the black and white keys and identifying Middle C. As you develop your hand posture and finger numbers, you will start playing simple melodies, which will introduce you to basic rhythms and timing. We will also explore foundational music theory, learning about the treble and bass clefs, as well as simple note reading. As you progress, you'll start practicing basic scales like C major and G major, and begin incorporating simple chords into your playing, such as C, G, and F major chords. Throughout the month, you'll develop finger strength and independence, experiment with dynamics and varying rhythms, and even work on playing songs with both hands together. By the end of the 30 days, you will have a foundational understanding of piano playing.
